Mission Statement

The mission of 3 Thirteen Productions is to give back to our community. We strive to produce films of the highest artistic caliber, allowing our employees an outlet to unleash their creativity and encourage them to make their imagination a reality. Customer service is our utmost priority, always ensuring that our client receives the best possible product for their money. We will not only serve big corporations, but also small businesses, giving them a chance to have a quality commercial or marketing video regardless of size. We will give 10% of our gross income back into the community into various local charities. As is the mission of the company, we will encourage our employees to volunteer and be involved in making our world a better place. 3 Thirteen Productions will treat each and every client with respect, honesty, and integrity.
